history & profile

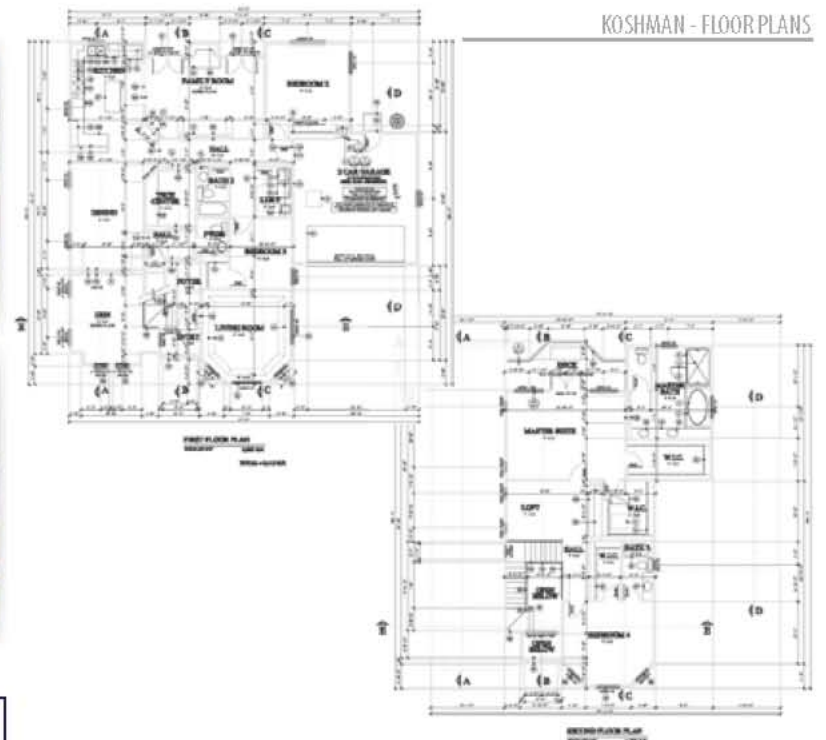

Headquartered in Roseville and founded in February 2004 by Wayne A. Adkins, Jr., he sought a better way to do business by enriching the community he lives in. With over 17 years experience, Mr. Adkins has expanded his company in areas of architectural, engineering, environmental, construction and land development services.

The Company's focus is total satisfaction of its clients by offering a "one-stop shop" concept. In addition, by creating a collaborative team environment ensures a smooth project completion and responsiveness to its client's needs. AEC's approach is tailored specifically to the client's project to provide the highest quality performance and personalized solution.

AEC believes in the well being of its community by upholding its vision, values and core beliefs. AEC acts as a philanthropist by giving back to the community by ways of sponsorship of school and community events and staying active within the community.
